

The market-leading third party risk management platform, enabling businesses to proactively identify and manage supplier risks

The platform uniquely combines supplier disclosures with public and third-party risk intelligence under a unified risk model.

With wide and near-real-time visibility and predictive risk outlook across supplier ecosystems, businesses can address emerging threats with speed and efficiency.

SmartRisk PRO is part of The Smart Cube, our suite of AI-driven digital platforms designed for specific procurement needs. By integrating robust risk intelligence, advanced AI and human expertise, The Smart Cube enables procurement teams to make strategic, data-driven decisions and drive value across the business.

Why SmartRisk PRO?

Supercharge supplier risk management with holistic intelligence backed by most comprehensive datasets and powered by AI and specialists

One subscription, integrated risk view

- ▶ One comprehensive platform covering financial, operational, cybersecurity and ESG risks

Extensive and real-time analysis

- ▶ Real-time and holistic risk analysis supported by in-depth information vs. point-in-time risk scores with opaque analysis from traditional vendors

Deep Risk Discovery with Predictive Risk Outlook

- ▶ Advanced AI models uncover hidden risk signals and deliver forward-looking outlook with explainable drivers and traceable source data for unparalleled visibility

AI-powered, On-Point Recommendations

- ▶ SME-grade risk remediation guidance leveraging Gen AI and curated library of risk mitigation levers across risk domains

Holistic integration of supplier disclosures

- ▶ Advanced due-diligence module for collecting and evaluating supplier response via questionnaires, powered by Gen AI and proprietary evaluation frameworks

Integration-friendly platform

- ▶ Integration-friendly platform with easy options for ingestion of our insights into S2P and SRM systems

SmartRisk PRO in Action

Leading Aerospace & Defence Company

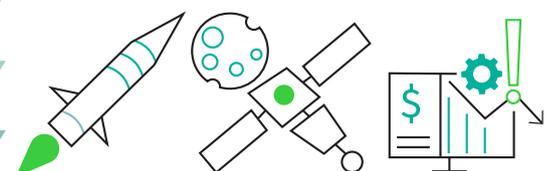

In an increasingly volatile market, relying on annual risk assessments for high-risk suppliers left the client vulnerable to emerging threats. The lack of real-time risk visibility limited proactive decision-making and hindered effective risk mitigation.

To address this challenge, the client utilized SmartRisk PRO, enabling continuous assessment of financial, operational, legal, ethical, and environmental risks. Leveraging our proprietary risk rating framework and SME knowledge of WNS Procurement's category and risk specialists, the platform provided early warnings and alerts alongside the suggested recommendations and next steps.

Outcome:

As a result, the client mitigated risks effectively, preventing significant financial losses and protecting the business' reputation. The solution strengthened the client's supplier risk management program and improved compliance through proactive measures.

- 1 Real-time risk assessment of strategic and other suppliers
- 2 Enhanced ESG compliance
- 3 Improved supplier collaboration

Key Features

Holistic and comprehensive risk coverage

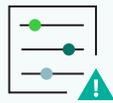

Monitoring of leading risk indicators from 100,000+ public and premium third-party sources for **near-real-time, unparalleled visibility** into financial, strategic, cybersecurity, ethics and compliance risks and supplier SLAs and KPIs

AI-powered risk discovery

Proprietary **AI algorithms** for relevant, accurate up-to-date insights, coupled with automated risk discovery and **forward-looking outlook** backed by supporting information on risk drivers

Corrective actions planner for risk mitigation

Collaborative risk remediation based on configurable priorities and deadlines with clear roles and responsibility assignments

Advanced due diligence module

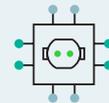

Integrated due diligence powered by **Gen AI and proprietary evaluation frameworks for holistic risk assessment** combining supplier disclosures with public and third-party information

Intelligent Risk Remediation — Powered by PIA+

At the core of SmartRisk PRO is PIA+, our **Gen AI-powered** procurement intelligent agent, providing **NLQ-based interaction and automated recommendations** for risk remediation based on risk level, risk type, supplier criticality, remediation approach, etc.

Seamless integration

Integration of **risk feeds into client systems**, such as S2P or SRM applications, via MCP servers, APIs and dedicated web links

Embedded AI agents & SME support

Built-in AI agents **fast track analysis and workflows**, while human specialists focus on need-based and contextual advice for **effective risk reduction**

SmartRisk PRO

The Smart Cube suite of digital platforms comprises four cutting-edge, AI-driven platforms—Category PRO, Amplifi PRO, Pipeline PRO, and SmartRisk PRO—each tailored to specific procurement needs. [Click here](#) to explore our digital platforms.
